

**How do I obtain contact information for an organic certifier in China and what is the acceptable organic certificate of Europe?**

Go to the NOP website at <http://www.ams.usda.gov/nop> and click on "Certifying Agents." Click on the "List of USDA Accredited Certifying Agents," then choose either domestic or foreign to find the closest Certifying Agent to you. Once you choose a Certifying Agent, and contact them, they will be able to explain all the steps required for you to become certified. The NOP does not maintain information on acceptable European certification. You will need to contact the European country to which you wish to sell your products and ask them what their requirements are for organic certification. You may contact the Chinese government for a list of organic certifiers operating there.
